

Certainty has not returned – and this is why

**SUPPORT
LIVE
EXPORTS**

There has been a lot of **FAKE NEWS** that live exports have resumed and that confidence has returned to the farming sector. It has been 4 months and **COUNTING** since the last shipment to the Gulf.

This is the TRUE STORY

June to Sept 2017: **532,000 sheep** exported = **\$62.0 million***

June to Sept 2018: **19,000 sheep** exported = **\$ 2.2 million***

*Estimated farm gate value **Total Loss = \$59.8 million***

AND it is not just Western Australian farmers and pastoralists who are losing their livelihoods:

- ✓ **Stock agents**
- ✓ **Feed suppliers**
- ✓ **Stevedores**
- ✓ **Transport companies**
- ✓ **Fuel suppliers**
- ✓ **Small businesses**

ALL are losing their livelihoods, and many others especially the northern cattle producers are in danger.

The live export industry is the largest buyer of our livestock, and supports regional businesses, provides much needed regional jobs, which in turn strengthens our regional communities.

So, if you support regional jobs, regional communities, regional business, and WA's hard working regional families
