

FARMING THE FUTURE GM TRAITS & VARIETIES

Imagine a healthier breakfast cereal produced from frost or drought tolerant wheat and the ability to sow dry every year

Australian researchers have imagined it and are now working to bring it to you!

Future GM Traits & Varieties
Thursday 13th October
12 noon - 5.30pm
Cunderdin CRC

This is your opportunity to listen to and meet world leading plant breeding researchers

Dr. Bruce Lee - CSIRO
Dr. Ulrik John - La Trobe University
Dr. Bryan Whan - Intergrain
Dr. Andrew Jacobs - University of Adelaide
Dr. Carl Ramage - Rautaki Solutions
Craig White - Bayer Cropscience
Prof. Wallace Cowling - Canola Breeders WA
Bill Crabtree - Crabtree Agricultural Consulting

Come find out what the future holds for you!

This Forum is FREE for producers
A light lunch will be served at midday.

Please register your attendance by Friday 7 October

Ph (Mon to Fri) 08 9479 4599 Fax 08 9277 7311
