

FARMING THE FUTURE GM TRAITS & VARIETIES

Imagine a healthier frost or drought tolerant wheat and the ability to sow dry every year

Australian researchers have imagined it and are now working to bring it to you!

**Friday 6th July
9.30am to 1pm
Esperance Bay Yacht Club**

This is your opportunity to listen to and meet world leading plant breeding researchers

Come and find out what the future holds for you!

**This is FREE for grain producers to attend
RSVP for catering by Monday 2nd July
